DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-35, 43-47, drawn to power control for a plurality of channels, classified in class 370, subclass 328.
 - II. Claims 38-42, drawn to error signal generator, classified in class 375, subclass 240.27.

The above inventions are separate, distinct, and independent. Neither requires other for its implementation, they have separate statuses in the art as shown by their different classification. Each invention, if allowable, would be capable for of supporting a separate patent. Therefore, restriction for examination purposes is proper.
